

We support a high school for our community

All children deserve access to quality education within their community.

We have 180 kids* who are forced to travel out of town to receive a secondary education.

We have 285 primary students* who face an uncertain educational future.

Many regional areas have Prep-10 education.

Why not us?

Access to quality secondary education is a real issue for anyone with children and for our community's growth and development.

In a 2009 survey of 260 residents 40% of families say they will leave town to live in a community that has a school if there is no high school when their children reach high school age. That is 68 families with 151 children who plan to leave. No families, no businesses, no town.

**WE NEED A HIGH SCHOOL FOR OUR
COMMUNITY NOW!
NOT TEN YEARS TIME, NOW!**
